

Weaverham High School Maths Department.

Year 9 – Preparing for GCSE.

Websites:

- Hegarty Maths for questions with supporting videos.
- The PiXL Maths app can be downloaded so pupils can access Maths questions at any time just for a few minutes or longer.
- www.mathsgenie.co.uk has videos and exam questions (with answers) for topics which are arranged by grade. This is really useful for pupils who struggle with a particular topic or who find choosing which bit of Maths to use for which question difficult.
- Onmaths.com have fully online "topic buster" tests which give immediate feedback. They also have mock type papers. They do a "summer school" which has a topic a day for pupils to work through.
- Mathsbot.com has a variety of different great resources. Particularly useful for pupils going into Y10 are GCSE Recall and recap which is a knowledge organiser type resource, and the formulae to learn.
- Seneca.com is useful for general revision work.
- BBC bitesize.
- If you look on the years 10 and 11 tab in the Maths area on FROG you will also find a large number of independent learning resources.
